18. [REDACTED] LIAISON/FOIA Upon receipt of a note from Heather Bernabo, in the office of Senator Claiborne Pell (D., R.I.), as to why we had not responded to a previous inquiry relating to a constituent, I called and informed her that I had spoken with her predecessor on 10 August 1977 and that I had asked that the subject inquiry be sent to my attention for processing, hence no response was necessary. Evidentially the file had not been properly noted to reflect my request. She said she also needed no written response to her current letter, but asked to be informed of the completion date of the subject appeal under the Privacy Act.

19. [REDACTED] LIAISON Spoke with Jay Morgan, in the office of Senator Edward M. Kennedy (D., Mass.), in response to his earlier request about disposition of Agency staff cars. When the Agency is finished with staff cars they are turned in to GSA. Morgan was familiar with the process once cars have been turned in to GSA and he needed no more information from us.
